	285	<p>This lot concerns 5x the Makita set with two machines.</p> <p>This complete set from Makita is suitable for every job. This set consists of a drill and impact driver, two 1.5Ah batteries with charger, a bit set and a case in which everything can be stored neatly and safely. At the front of the case there is room for screws, bits or plugs. The convenience of combining both an impact driver and a drill is unparalleled. If you work with wood or other materials, you know how frustrating and time-consuming it is to switch between a drill and a bit every time you want to pre-drill something. With these two devices you can switch between drilling and screwdriving very quickly and easily.</p> <p>Specifications DF457D Connection/receiving: 10 mm keyless chuck with spindle lock Drill chuck: 1.5 - 13 mm cap. drilling in wood: 36 mm cap. drilling in metal: 13 mm Left, right turning: yes Tightening torque soft / hard: 24 / 42 Nm Tightening torques: 16 Var. speed control (switch): yes Number of mechanical revolutions: 2 No-load speed (position 1): 0 - 400 No-load speed (position 2): 0 - 1400 Volts (voltage): 18 V Motor type: 2-pole Soft grip: yes Battery protection: yes Electric brake: yes Drill shaft: 1/2"-20UNF dim. l x w x h: 221 x 83 x 240 mm Sound pressure level (LpA): 70 dB(A) Sound pressure level (K): 3 dB(A) Vibration ah drilling in metal: 2.5 m/s² Vibration (K) drilling in metal: 1.5 m/s² Weight (EPTA): 1.7kg</p> <p>Specifications TD127D Connection/Recording: 1/4" hexagon</p>	590 €

	<p>310</p>	<p>Quantity: 1 Product Category: 18v Makita Tools Brand: Makita Model: DK18354X1 Weight category: 0 to 23 kg Condition: New Lying in/on: Original packaging</p> <p>This complete set from Makita is suitable for every job. This set consists of a drill and impact driver, two 1.5Ah batteries with charger, a bit set and a case in which everything can be stored neatly and safely. At the front of the case there is room for screws, bits or plugs. The convenience of combining both an impact driver and a drill is unparalleled. If you work with wood or other materials, you know how frustrating and time-consuming it is to switch between a drill and a bit every time you want to pre-drill something. With these two devices you can switch between drilling and screwdriving very quickly and easily.</p> <p>DF457D - Makita Drill The drill fits comfortably in the hand and the ergonomic handle with soft grip in combination with the light weight of only 1.7 kg makes working with the DF457D pleasant and easy. On top of the machine, the speed can be set in two positions, one for drilling and one for screwing. Within these positions, the speed can be variably controlled with the trigger. Due to the hardened steel gear drive, this drill will last for years!</p> <p>TD127D - Makita Impact Driver Where the drill excels in fast rotation, the impact screwdriver has been specially developed to deliver a lot of</p>	<p>30 €</p>

force (up to 140Nm) if necessary. At the front of the TD127D, you can quickly click hexagonal bits into the machine and transfer the high force perfectly to the fastener. Due to the light weight of only 1.5 kg, working with this Makita impact screwdriver is fine and can be sustained for a long time. This machine is also equipped with built-in LED lighting for optimal visibility while working.

Specifications DF457D

Connection/receiving: 10 mm keyless chuck with spindle lock

Drill chuck: 1.5 - 13 mm

cap. drilling in wood: 36 mm

cap. drilling in metal: 13 mm

Left, right turning: yes

Tightening torque soft / hard: 24 / 42 Nm

Tightening torques: 16

Var. speed control (switch): yes

Number of mechanical revolutions: 2

No-load speed (position 1): 0 - 400

No-load speed (position 2): 0 - 1400

Volts (voltage): 18 V

Motor type: 2-pole

Soft grip: yes

Battery protection: yes

Electric brake: yes

Drill shaft: 1/2"-20UNF

dim. l x w x h: 221 x 83 x 240 mm

Specifications TD127D

Connection/Recording: 1/4" hexagon

easy. On top of the machine, the speed can be set in two positions, one for drilling and one for screwing. Within these positions, the speed can be variably controlled with the trigger. Due to the hardened steel gear drive, this drill will last for years!

TD127D - Makita Impact Driver

Where the drill excels in fast rotation, the impact screwdriver has been specially developed to deliver a lot of force (up to 140Nm) if necessary. At the front of the TD127D, you can quickly click hexagonal bits into the machine and transfer the high force perfectly to the fastener. Due to the light weight of only 1.5 kg, working with this Makita impact screwdriver is fine and can be sustained for a long time. This machine is also equipped with built-in LED lighting for optimal visibility while working.

Specifications DF457D

Connection/receiving: 10 mm keyless chuck with spindle lock

Drill chuck: 1.5 - 13 mm

cap. drilling in wood: 36 mm
