

**ADDENDUM TO THE GENERAL AND SPECIAL CONDITIONS –
COVID-19**

From 2 November 2020, the general conditions and the special conditions will be supplemented by an addendum relating to the coronavirus COVID-19, in particular in consideration of the Ministerial Decree of 1 November 2020 on urgent measures to limit the spread of the coronavirus COVID-19 (hereinafter the ‘Ministerial Decree’). The provisions contained in this Addendum shall prevail over the general conditions and/or special conditions in the event of any discrepancy or ambiguity.

- A.1.** The organization of viewing moments for consumers is not permitted in accordance with the Ministerial Decree. A buyer or bidder who wishes to bid on a certain lot in his capacity as a consumer, acknowledges that he can only use the information provided in the catalogue or on the website to verify the characteristics of this lot, including its defects. The buyer or bidder always has the possibility to request additional information about the condition of the lot(s) via info.moyersoen@auctim.be. If the buyer waives this possibility, and no proof is provided that the seller or the AUCTIM Partner provided manifestly incorrect or misleading information, the fact that the buyer was not able to view the lots can never lead to the termination or annulment of the sales agreement, or to a right of withdrawal.
- A.2.** The AUCTIM Partner only provides viewing moments for buyers or bidders who wish to make an offer on a certain lot in their capacity as a company or professional. These viewing moments will take place on the date and time indicated for the lot in question, or by appointment. If the buyer does not make use of the opportunity to view the lot(s), this can never lead to the termination or annulment of the sales agreement.

AUCTIM
POWERED BY MOYERSON

- A.3.** All persons taking part in the viewing or collection moments must follow the measures and guidelines imposed by the government with regard to the coronavirus COVID-19, including wearing a mask.
